

Medical Managers Training Program

Registrations for 2017 are now open

This two-day program is aimed at Staff Specialists looking to improve their Financial and People Management Skills. This course is essential for Staff Specialists receiving a managerial allowance.

Mastering Improved Clinician Performance

Facilitated by the Cognitive Institute, this session empowers clinical managers to better manage staff.

Resource Management for Better Clinical Outcomes

This session introduces participants to the mechanics of monitoring, managing and reporting on financial and performance information within the NSW Health context.

Conversations in Medical Management: Workplace Culture and Disrespectful Behaviour

Run by Sydney Clinical Skills and Simulation Centre, this session demonstrates use of effective communication skills and provides simulated practice in one-on-one conversations.

\$900 per participant
