

Take the Lead 2 (TTL2) is a customised program designed specifically for N/MUMs and Nurse Managers who manage clinical unit/s or ward/s. This program will run over two years with a total of 5 face to face days (Sydney based) and monthly collaborative coaching, information and teaching webinars (on line interactive sessions). The webinars will be an opportunity for networking and will also serve to build communities of practice and action learning sets.

The program aims to increase N/MUMs knowledge of managing for performance and will assist in transforming themselves and their units into high performing teams. The program is designed so that participants can practice the skills they have learned in their ward/unit as they progress through the program.

The TTL2 program also offers an opportunity for participating N/MUMs to complete a 360 feedback and individual coaching session.

**The format of the 2 year program is depicted below:**

### Selection criteria:

- You will be in a N/MUM or N/MM role or equivalent, managing staff, and have at least 12 months experience in the role
- You must have support from your Director of Nursing & Midwifery (DNM) to participate in TTL2 including agreement from your DNM to release you for 5 days of workshops and 21 webinars over 2 years
- You must have clear personal learning objectives that will be met by participating in this course
- You must commit to participate in 80% of the course
- You must have completed a financial management program
- You must have an identified mentor (please discuss with your DNM)
- You must be willing to enter into a learning contract and be ready to actively apply your learning to your workplace
